## Experience

- SDE 1, Nymble** 📄 02-2023 – present | Bengaluru, India
- Currently, responsible for maintaining two apps that are integrated with a cooking robot. It utilizes **method** and **event** channels to interact seamlessly with the robot.
  - Worked on **performance optimization**, by analyzing (**DevTools**) and implementing various techniques that reduced frozen frames from **66%** to **35%**.
  - Following **TDD** (Test-Driven Development) with unit, widget, and **bloc** testing, refactored code for **testability**, and also contributing to internal and admin tools using **Flutter Web**.
- SDE intern, Caravel** 📄 08-2022 – 02-2023 | Remote
- Contributed to and maintained an ed-tech app, responsible for **architecture**, Business Logic following best practices.
  - Integrated **60+ Restful APIs** with RiverPod(state management), Dio(networking), and Hive(local storage) following MVC. Signing the APKs, made a **release to production**: play store 📄
- Flutter Developer, Velocity** 📄 02-2022 – 06-2022 | Remote
- Contributed to Customer, Restaurant, and Delivery apps which are part of a Food delivery service, was responsible for developing UI, **and Business Logic** with proper state management using **BLOC** and MVC architecture.
  - Integrated 50+ Restful APIs for Authentication, Creating orders, Cart Checkout, User Details, order tracking (Google Maps) Wallet, Bill generation, Hive (caching), FCM (Firebase), RazorPay(payment)
- Flutter Developer, Embrays Tech.** 📄 12-2021 – 01-2022 | Remote
- Contributed to v2 of Stock Learning App and Worked on River Pod (state management), Razor Pay (payment), Integrated **15+ Queries** (GraphQL), Sync fusion (chat, gauges), and integrated Authorization flow, v2 of the StockDaddy 📄 app has **100k+ downloads**

## Technical Skills

- Languages: C++, Dart, JavaScript
- Familiar with: Go, Fiber, Mongo Db, Redis
- Libraries: Flutter, React, Node, Express, MUI
- Others: Firebase, Linux, Git, Docker, Figma

## Projects

- Extension Enabler** 📄
- A **Flutter Package** (CLI App) that enables the Flutter web app as a Chromium-based **extension** with simple commands.
  - Package automates setting up the configs with file manipulation and command arguments like (enable, update, and build).
- Ping It** 📄
- Chat app using **MERN** stack with email and google with use JWT for verification. Use sockets for creating secure connections between users for a chat.
- Quick Tweets** 📄
- App created with Flutter, which gets the tweets of users with Twitter API. BLOC pattern as state management Firebase for authentication and storing.

## Education

- National Institute of Science and Technology** 08-2019 – 05-2023 | Orissa, India  
B.tech in Computer Science | CGPA: 8.1/10
- De Paul School**, secondary and higher secondary education | ICSE 2004 – 06-2019 | Orissa, India

## Volunteer Experience & Hobbies

- GDSC NIST** 📄 Core Team and Club Excel (Coding Club), We work together to increase the coding culture around us, and we are **responsible** to help students by teaching and **organizing** workshops about new technologies in colleges and schools.
- I also help others in **stack overflow** 📄 and Reddit by **solving issues** and bugs aligned with me, it helps me to **grow** as a developer.
